Employment opportunities in the Mamanuca Islands are high with Amunuca Island Resort & Spa Fiji planning to extend its resort by constructing another 55 luxury bure.

The resort which is one of the many resorts under the Inspired Destinations Inc (IDI) Hotels Limited, currently provides employment for approximately 147 staff and will be adding more to the number once construction works begin towards the end of the year.

IDI Hotels Limited chief executive, Victor Chua said the Amunuca Resort has so many other plans in the pipeline which would benefit villagers in the nearby villages and other people in the tourism industry.

We are planning to extend out resort by building another 55 bure, he said. This will surely benefit the people around these areas as we will be looking at employing a large number of people once we open the bures, he said.

Mr Chua said the staff of Amunuca Island Resort and also the management team are proud of the fact that through the World Supermodel Pageant, that was held at the resort, they had managed to put Fiji back into the world map.

The pageant has really boosted tourism in the country, he said.

Many people are coming into the country because of the pageant and we pride ourselves in the fact that we have managed to contribute to tourism in the country, he said. He indicated that while the organisers of the World Supermodel Pageant are thinking of holding the pageant again in the country next year, the resort is ready to put in the extra dollar to bring about positive changes to the resort.

He know that it is going to be a huge event next year, and like this year we had spent a little extra than our budget but we are happy with the outcome.

On next year, we are ready to have a huge facelift for the resort to accommodate the event, Mr. Chua said.
